WHEREAS, the said Frank J. Mayor Conte asked if there were any citizens present who wished to be heard on the application.

Mr. Jack J. Soriano, 44 Cleveland Terrace, remarked he had objected to the application as he felt this kind of Plenary Retail Distribution License should not be located in a grocery store where liquor may be readily available to all customers regardless of age.

Mr. Harry Porciello, 735 Bloomfield Avenue, spoke in favor of the application and suggested that this would be in the best interest of the town.

Mr. Peter J. Cass, an attorney, appeared on behalf of his client, The Great Atlantic & Pacific Tea Company, Inc.

Mr. Cass stated that the A& P is required to move from 38 Broad Street no later than March 31, 1963, that the proposed liquor store in its new location would be completely partitioned off and separated from the grocery store, that the only door would be from the street to the store, and finally that should the Building Inspector, as a safety measure, require a rear door, his client represents that there would be no customer access through this door.

Mr. Soriano withdrew his objection on the basis of the representation that the liquor store would be a completely separate operation from the grocery store.

6. Difference: Amount to be Raised by Taxes for Support of Muni- cipal Budget (as follows):		
(a) Local Tax for Municipal Purposes Including Reserve for Uncollected Taxes (Item 6 (a), Sheet 6)	2,634,756.08	2,523,516.07
(b) Addition to Local District School Tax (Item 6 (a) Sheet 6)	<u>458,898.75</u>	<u>461,698.25</u>

The foregoing "Summary of Current Fund Section of Budget" develops the property tax for municipal purposes after the method required by regulations under State Law. This results in full inclusion of the Reserve for Uncollected Taxes in the portion of the tax levy described as for the support of Town budget appropriations. This reserve, or "overlay," designed to guarantee operation on the full cash basis, while termed an "appropriation" is not a spending authorization and supports Town, School and County Taxes proportionately. Its enforced inclusion here inflates the local purpose tax and causes expression of the other two segments of the levy at the amounts of cash required, rather than in terms of taxes raised for their support.

Net Assessed Valuations	<u>\$270,178,382.00</u>	<u>\$131,308,142.00</u>				

The net assessed valuation for 1962, as determined by the Assessor, was based on 50% of true value, whereas the 1963 valuation is expressed as 100% of true value, a requirement for 1963. The 1962 tax rate has been computed on the 100% basis for easy comparison with the 1963 estimated tax rate.

The 1963 Annual Budget proposes an increase in appropriations for Town purposes of \$111,240.01. Increases in operational costs are reflected in this Budget and will provide for: Additional personnel to implement a reduced duty schedule in the Fire Department; a modest salary increase for Town employees; increased appropriations to the Capital Improvement Fund, Hospital Service Plan, Free Public Library and Public Assistance; additional funds to improve street lighting and road maintenance. These increased operational costs were offset to a degree by reduced requirements for Debt Service, Deferred Charges and Statutory Expenditures.

The Reserve for Uncollected Taxes for 1963 is computed at 93.48% and amounts to \$605,471.21. This is a reduction over 1962 of \$54,660.23 and further assisted in offsetting higher operational costs.

The 1963 appropriation for School Purposes is \$4,204,612.19; an increase of \$207,809.63.

The appropriation for County Purposes is estimated in this Budget at \$2,447,000.00 and is an increase over 1962 of \$273,386.65.

Revenues have been anticipated at levels believed fully realizable and operating appropriations are the minimum amounts deemed necessary to provide municipal services commensurate with Town needs.

CHAPTER 17, SECTION 17-4, OF THE Through Street -  
"BLOOMFIELD TOWN CODE". Essex Avenue)

Mayor Conte asked if there were any objections to the ordinance just read by the Clerk.

Mr. F. Thomas Juster, 123 Essex Avenue, appeared and submitted the following petition, signed by residents in the area of Essex Avenue:

- "1. We understand that a proposal is to be introduced, or has been introduced, to designate the area of Essex Avenue between Benson Street and Bay Avenue as a throughway.
2. We further understand that commercial traffic, now prohibited, would be permitted to use Essex Avenue, and we have heard unverified rumors that the traffic congestion on Broad Street is to be relieved by encouraging the use of Essex Avenue as an alternate route.
3. We wish to express our strong disapproval of any regulations that would have the effect of:
  - (1) Opening Essex Avenue to commercial traffic
  - (2) Encouraging the increased use of Essex Avenue by non-commercial traffic

At the same time, the Council should know that we have no objection to the stop signs recently placed on the streets intersecting Essex Avenue unless these stop signs are the first step in opening Essex Avenue to an increased flow of traffic. A great many children currently live

and play on Essex Avenue, undisturbed by trucks and heavy vehicular traffic: We think that these advantages ought to be retained.

4. We further wish to register a strong protest against the current use of Essex Avenue, Comley Place, and Vernon Terrace by commercial traffic. Existing traffic regulations clearly prohibit such use, but the regulations have not been enforced despite repeated complaints by residents."

The petition was ordered placed on file.

6. Difference: Amount to be Raised by Taxes for Support of Muni- cipal Budget (as follows):		
(a) Local Tax for Municipal Purposes Including Reserve for Uncollected Taxes (Item 6 (a), Sheet 6)	2,634,756.08	2,523,516.07
(b) Addition to Local District School Tax (Item 6 (a) Sheet 6)	<u>458,898.75</u>	<u>461,698.25</u>

The foregoing "Summary of Current Fund Section of Budget" develops the property tax for municipal purposes after the method required by regulations under State Law. This results in full inclusion of the Reserve for Uncollected Taxes in the portion of the tax levy described as for the support of Town budget appropriations. This reserve, or "overlay," designed to guarantee operation on the full cash basis, while termed an "appropriation" is not a spending authorization and supports Town, School and County Taxes proportionately. Its enforced inclusion here inflates the local purpose tax and causes expression of the other two segments of the levy at the amounts of cash required, rather than in terms of taxes raised for their support.

The net assessed valuation for 1962, as determined by the Assessor, was based on 50% of true value, whereas the 1963 valuation is expressed as 100% of true value, a requirement for 1963. The 1962 tax rate has been computed on the 100% basis for easy comparison with the 1963 estimated tax rate.

The 1963 Annual Budget proposes an increase in appropriations for Town purposes of \$111,240.01. Increases in operational costs are reflected in this Budget and will provide for: Additional personnel to implement a reduced duty schedule in the Fire Department; a modest salary increase for Town employees; increased appropriations to the Capital Improvement Fund, Hospital Service Plan, Free Public Library and Public Assistance; additional funds to improve street lighting and road maintenance. These increased operational costs were offset to a degree by reduced requirements for Debt Service, Deferred Charges and Statutory Expenditures.

The Reserve for Uncollected Taxes for 1963 is computed at 93.48% and amounts to \$605,471.21. This is a reduction over 1962 of \$54,660.23 and further assisted in offsetting higher operational costs.

The 1963 appropriation for School Purposes is \$4,204,612.19; an increase of \$207,809.63.

The appropriation for County Purposes is estimated in this Budget at \$2,447,000.00 and is an increase over 1962 of \$273,386.65.

Revenues have been anticipated at levels believed fully realizable and operating appropriations are the minimum amounts deemed necessary to provide municipal services commensurate with Town needs.

maintained. To date, the residents of Brookdale Gardens have received many tickets and no services.

In view of this we now ask for installation of street lights. As soon as the sun goes down this whole area is thrown into almost complete darkness. It is extremely unpleasant and most dangerous to have to face the prospect of a three or four block walk to the back of the development. The building lights, unfortunately, do not provide adequate illumination to even light up the building number much less the street or the various courts."

The bonds will be issued in bearer form with coupons and will be registerable as to principal only or as to both principal and interest reconvertible at the expense of the holder into coupon bonds and will be payable at the office of The National Newark and Essex Banking Company of Newark, Bloomfield Center Office, in the Town of Bloomfield, New Jersey.

The bonds will be of the denomination of \$1,000 each, except as may be otherwise specified in accordance with this paragraph by the successful bidder in a designation delivered to the Town Clerk at or prior to 4:00 o'clock P.M. on November 14, 1963. In such designation, the successful bidder may specify with respect to any of the bonds of like issue and maturity that any principal amounts thereof which are a multiple of \$5,000 shall be of the denomination of \$5,000 each. In the event of timely receipt of such designation from the successful bidder, the bonds specified therein in accordance with this paragraph will be of the denomination of \$5,000 each, and will thereafter not be exchangeable for bonds of the denomination of \$1,000.

Each proposal must specify in a multiple of  $1/8$  or  $1/20$  of 1% a single rate of interest not exceeding 6% per annum which the bonds are to bear, and no proposal will be considered which specifies a rate higher than the lowest rate stated in any legally acceptable proposal. As between legally acceptable proposals specifying the same rate of interest, the bonds will be sold to the bidder complying with the terms of sale and offering to accept for

the amount bid the least amount of bonds, the bonds to be accepted being those first maturing, and if two or more bidders offer to accept the same least amount, then to the bidder offering to pay therefor the highest price. The purchaser must also pay an amount equal to the interest on the bonds accrued to the date of payment of the purchase price.

The right is reserved to reject all bids and any bid not complying with the terms of this notice will be rejected.

All bidders are required to deposit a certified or cashier's or treasurer's check payable to the order of The Town of Bloomfield, New Jersey, for \$23,540 drawn upon a bank or trust company. The check of the successful bidder will be retained to be applied in part payment for the bonds or to secure the Town from any loss resulting from the failure of the bidder to comply with the terms of his bid. The bonds will be delivered about 30 days after the date of sale in New York City, or at such other place as may be agreed upon with the successful bidder.

The successful bidder may at his option refuse to accept the bonds if prior to their delivery any income tax law of the United States of America shall provide that the interest on such bonds is taxable, or shall be taxable at a future date, for federal income tax purposes, and in such case the deposit made by him will be returned and he will be relieved of his contractual obligations arising from the acceptance of his proposal.

Proposals should be enclosed in a sealed envelope marked on the outside "Proposal for Bonds" and if submitted by mail directed to Mr. H. Joseph North, Town Clerk, Municipal Building, Bloomfield, New Jersey.

It shall be a condition of the successful bidder's obligation to accept the bonds that such bidder be furnished, without cost, with (a) the approving opinion of the firm of Hawkins, Delafield & Wood to the effect that the bonds are valid and legally binding obligations of said Town and that all the taxable property therein will be subject to the levy of ad valorem taxes to pay said bonds and interest thereon without limitation of rate or amount, and (b) certificates in form satisfactory to said firm evidencing the proper execution and delivery of the bonds and receipt of payment therefor, including a statement, dated as of the date of such delivery, to the effect that there is no litigation pending or (to the knowledge of the signer thereof) threatened affecting the validity of the bonds.

The Town Clerk read the following letter in full:

"November 13, 1963

Mr. H. Joseph North,  
Town Clerk  
Bloomfield, New Jersey

Dear Sir:

At a regular Town Council meeting on November 4, 1963 an ordinance entitled: "An Ordinance To Amend And Supplement Chapter 4, Entitled "Amusements" Of The "Bloomfield Town Code" was enacted by the Town Council.

By the authority vested in me as Mayor of the Town of Bloomfield, I herewith invoke the power of veto upon said ordinance and return it unsigned.

The ordinance in question was supported and requested by the owners and operators of the Bloomfield Bowl-O-Mat.

At the request of the Town Council, the Chief of Police was asked to make a recommendation concerning the extension of the closing hours for bowling alleys to 2 o'clock A.M. On August 15, 1963, the Chief of Police replied as follows:

"It is my opinion that the one o'clock closing hour should be retained. My reason is based on the fact that minors are permitted the use of the bowling privileges. I feel that a later closing hour would have the effect of enticing the minors to late hours".

A review of the Police records indicate that in the short period of time that the Bloomfield Bowl-O-Mat has operated 25 incidents of various types have required Police investigation. This fact, of course, should not create the inference of improper operation. The heavy volume of incidents is more a reflection of the inducements presented by late evening operations inherent in this business.

On the basis of the recommendation of the Chief of the Police Department, coupled with the volume of incidents reported, the extension of the hours of operation to 2 A.M. does not seem to be in the best interest of the community.

In my judgment, this is especially true in view of the fact that minors and alcoholic beverages find themselves in close proximity in the Bloomfield Bowl-O-Mat. It is also significant that for many years the operators of other bowling alleys have not reported any interest on the part of Bloomfield citizens for late hour operations. It would seem, in considering the entire community, that there is no broad demand for the extension of hours of operation.

For the reasons expressed above, I have seen fit to invoke the power of veto.

Very truly yours,

/s/ Ralph G. Conte

Ralph G. Conte,  
Mayor

RGC:dmc "

The letter was ordered placed on file.

Mr. George S. Grabow, an attorney representing Bloomfield Bowl-O-Mat, appeared and spoke regarding the veto, requesting Mayor Conte to reconsider the veto in order that the twenty-five incidents referred to might be analyzed. Mr. Grabow remarked, to his knowledge, none of the incidents took place inside the bowling alley.

Mayor Conte remarked he is not disposed to reconsider his veto.

Mr. Vincent J. Biunno, 60 Lindbergh Boulevard, appeared and spoke regarding assessments.

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J., that said recommendation of the Board of Adjustment (Zoning) set forth in its resolution adopted November 14, 1963, aforesaid be and the same is hereby disapproved for the following reasons:

1. The erection, construction and operation of two garden apartment buildings, each containing 24 dwelling units, for an aggregate of 48 dwelling units and providing for 56 off-street parking spaces on the subject premises located in an R-4A Small Volume Residential Zone, is not compatible with the accepted permissible uses in an R-4A Zone.
2. The proposed use would overcrowd the land, would produce an undue density and concentration of population, would increase congestion in the streets and would not provide sufficient open spaces to reasonably accommodate the occupants of the proposed 48 dwelling units.
3. The only means of entrance and exit provided for vehicular traffic to and from the proposed garden apartment project is to and from Montgomery Street, a very narrow street with a 30 foot carriage-way which is presently inadequate to provide a free flow of the extremely high volume of traffic which uses this thoroughfare as a through street from the Bloomfield Center area to Belleville and Newark.
4. There is presently erected on the southeast corner of Montgomery Street and Berkeley Avenue, abutting the premises in question on the west, a large structure built out to the Montgomery Street property line, containing stores on the ground floor and apartments on the upper floors. Said building would obstruct the

view of motorists exiting from the proposed garden apartment project and thus would create a major traffic hazard and would produce a dangerous condition that could lead to numerous serious accidents.

5. The maximum allowable lot coverage in said zone is 25%. The proposed lot coverage, including off-street parking, but exclusive of passageways and driveways, is 43.6%, constituting a proposed excess lot coverage of 18.6%, which is considered to be too great.
6. The maximum allowable floor area ratio in said zone is 40%. The proposed floor area ratio is 50.7%, which is deemed to be excessive.
7. The maximum allowable number of dwelling units in said zone is two (2) on each lot, or a total of four (4) for the premises in question which consists of two (2) lots. The proposed number of dwelling units is forty-eight (48), which is highly inordinate.
8. The minimum average required dwelling unit area in this zone is eight hundred (800) square feet. The proposed average dwelling area in the garden apartment project is 577 square feet, considered by this Council to be insufficient.
9. The proposed side yard clearances are totally inadequate.
10. The relief sought cannot be granted without substantial detriment to the public good and would substantially impair the intent and purpose of the Zone Plan and Zoning Ordinance.
11. Insufficient special reasons have been shown to warrant the granting of the variance sought.
